|------------------|-------------------|-----------|
| Graphic Design | Adobe Photoshop | XHTML |
| Interface Design | Adobe Illustrator | CSS |
| Photography | Adobe InDesign | PHP, AJAX |

History

Freelance Design (2000-Present)

Have worked contract jobs since attending The Art Institute. A steady stream of commissioned work has provided the opportunities to expand my knowledge of design. Through these various Websites, logos and print pieces I have garnered many challenges and even more rewards.

Greater Good Network (2001-2010)

Developed and maintain e-card program since it's inception. Redesigned and continually develop e-mail campaign regularly deployed to 500,000 subscribers. Developed photography procedures and regularly design advertisements, apparel creation. Continually strive to improve e-commerce stores' GUI and lay out.

While working with every department, I have learned to define and communicate solution design at both a creative and a business level, having to always keep the best interest of the company at the forefront.

Sunsets West LLC (2006-2007)

Designed company logo and branding. Hand-coded and implemented Website utilizing XHTML and CSS.

Education

Art Institute of Seattle (1998-2000)

Graduated in December of 2000 with an Associate of Applied Arts in the Multimedia Program.

Edmonds Community College (1996-1998)

Washington State University (1995-1996)

Emphasis on Graphic Design Program.

Personal Note

I have always had a strong predilection to creating art. Since a young age I have drawn and painted. At around 12 years old I took up photography and videography. My higher academic career started at Washington State University in the Graphic Design program and ended at the Art Institute of Seattle where I learned traditional and digital design applications. I have a great affinity for all forms of art.
